Hello All

As we discussed at the last Elder's meeting, I had a phone conversation with C&FM candidate Cameran Simmons. She had just completed a week at Joni and Friends Camp. The camp was started by Joni Eareckson Tada for special needs children. She was responsible for taking care of a 9 year old special needs child for the week.

The following two pieces of information is what we agreed to discuss with her.

- 1) I let her know about the recent hiring of MX new LM.
- 2) I also told her about the budget constraints we are facing for hiring a new C&FM. I did let her know we have a need and desire for a C&FM who could support families and provide a foundation for children spiritual formation. Someone who could go into homes and work directly with and equip parents to be their children's spiritual teachers. I briefly told her about Jeff and his interim role as a CM. We talked a bit about the recent VBS at MX.

She responded by taking a week to pray about whether or not she would want to consider starting a formal interview process with MX.
